## REPORT OF SUPERINTENDENT OF SCHOOLS.

---

*To the School Board, and the Citizens of Deerfield:—*

Herewith I submit the following school reports for your consideration.

1. School organization.
2. School statistics for 1924-1925.
3. Medical inspection report.
4. Report of graduates, and perfect attendance.

Each one tells its own story.

As yet Deerfield is reaping no material benefits from medical inspection. The difficulty is not with the inspection. It lies in the fact that nothing is done to remedy the physical defects of your children after their defects have been discovered and reported. The more progressive communities engage a full time nurse. She can perform the inspection; furthermore being a full time worker she can follow up the cases which need special attention. A school nurse will not dispense with the doctor's services in a community. On the contrary it will create a greater demand by cooperating with the local doctor, in removing the ailments and their causes. The services of a nurse can be secured without added expense to the school district. The school boards and the superintendent know how the New Hampshire system of state aid makes this possible. Health is one of the great aims of education at the present time.

It is a pleasure to report that the school board has already begun to remodel the school buildings along more modern lines. The Parade school is a good example.

Let us hope that nothing may interfere with this worthwhile project.

During the past year, as in others, as executive of the various school boards of the various towns in the supervisory union, I have devoted my entire time to my work. . . I have contributed a generous share of labor in the organization, the employment of teachers, the direction of their work, and in the numerous details of school administration.

Whatever is achieved is always in proportion to the people's true desire for educational advancement. Everything which has to do with greater opportunities for our children is worth the active and persistent effort of every citizen.

Very truly yours,

VINCENT GATTO,

*Supt. of Schools.*
